

Amputee Support Group

TO ALL MEMBERS

July - September, 2018

Look for changes in the next newsletter. St. Anthony's will be known as Mercy Hospital South on October 1st, and the name of our support group will change. Same great group, Same great people. Let's keep growing.

April 9th-- we had a fascinating visit with Tom Wegener about "A look at the experiences by one American in the city of NanNing China."

This included the education system, accessibility, shopping, traffic and health care. We may complain about health care here in the U.S. but having to bring in family or hire someone to provide personal care and food, while in the hospital, seemed especially foreign.

COMING UP NEXT

Merrily We Travel On: Travel Made Easy with the Right Do Around. Travel Tips with Sue Slater, From Presto Magic Travel. Sue is completely blind and has been sending travelers with limitations on trips for the last 18 years. She is also the wife of support group member Larry Slater. She is an advocate for universal design and when traveling herself or with her husband, who uses a wheelchair, she checks out the room and gives the hotel feedback when what they call wheelchair accessible is not !

Join us at a Support Group meeting, share your experiences and learn from others. Come meet some new friends, brainstorm for future speakers and join us for lunch. Luncheons are for socializing and getting to know each other.

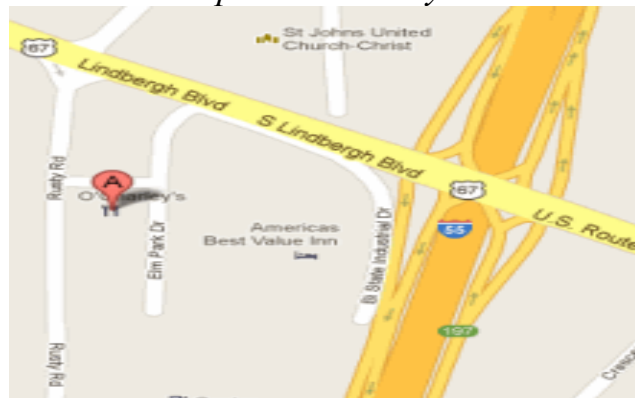

Check out our website.

www.delweg.com/support_group

All lunch meetings begin at 11:00 a.m. They are held at O'Charley's Restaurant 4130 Rusty Road.

Lindbergh near Hwy 55. Heading in towards Costco and Target.
